DYMAX NANO CO2 DIFFUSER MD-105

Dymax Nano CO2 Diffuser, the first innovated design for mini plant aquarium to obtain optimum diffuser of CO2 without any wastage. This diffuser work on the spinning action from the flow of water into the reacting chamber together with the CO2 gas, colliding with the bio ball in order to obtain maximum efficiency of the diffusion.

For aquarium tanks up to 60cm. (4.0)

PRICE:

€ 10.00

DYMAX CO2 BUBBLE COUNTER-DOUBLE ENDED

With a CO2 bubble counter, you can easily monitor how much CO2 is added to your tank. Moreover, a CO2 bubble counter is very useful when you fine-tune your CO2 supplying system. (4.0)

PRICE:

€ 13.00

DYMAX GLASS ATOMIZER GA102S

Dymax Co2 Glass Atomizer GA102 is made of glass and features a high quality ceramic disc to provide optimum diffusion of Co2.

- It is durable and small in size and thus easily installed.
- It should be placed at the bottom of the tank in order to obtain the optimum result.
- When the ceramic disc is blocked, simply soak it in bleach water for 3-5 minutes then rinse with tap water and reuse again. (4.0)

DYMAX CO2 ALUMINUM STARTER KIT 0.6L

Experience CO2 enrichment for your planted tank with the Dymax CO2 Aluminum Starter Kit!

This complete kit makes it easy to maintain healthy, lush growth in your aquarium with features like a CO2 diffuser, regulator, bubble counter, air tubing and 0.6L CO2 cylinder with cylinder stand. This is a basic CO2 kit to get you started.

Suitable for aquariums up to 250L

Get growing today!

- Single molded canister
- High pressure aluminum cylinder
- Special treated aluminum surface for durability
- Made of high quality material
- Specially designed for aquatic use

Starter Kit comes with:

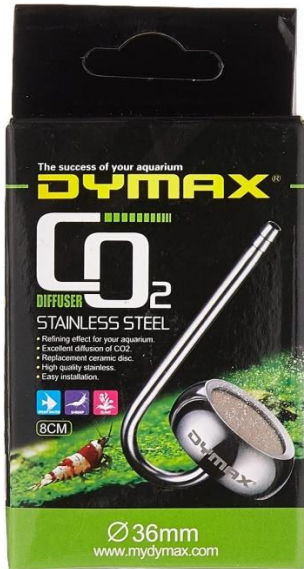

- CO2 Diffuser
- CO2 Regulator
- CO2 Bubble Counter
- CO2 Air Tubing
- CO2 0.6L Cylinder
- CO2 Cylinder Stand

Please Note: The 0.6L canister does not come with CO2 and will need to be filled once purchased. (4.0)

DYMAX STAINLESS STEEL CO2 DIFFUSER

CO2 is arguably the most important element in the planted aquarium. It is required for respiration and growth by all aquatic plants, used in a process called photosynthesis.

So, when only the best will do the Dymax range of Aqua scaping and planted tanks brings you the best range in equipment.

Dymax Stainless Steel Co2 diffuser uses special ceramic refinement. The quartz plate, which is used by the Dymax Stainless Steel Diffuser has an ultra-fine effect and high dissolution rate that breaks up a steady stream of carbon dioxide into tiny bubbles. These very small bubbles produce a much higher surface-area-to volume ratio than large ones, making it easier for the gas to be diffused into water.

This diffuser is design to be compact in size and easily installed. The bend hanging feature of the Dymax Stainless Steel Diffuser that provide more elegant looking and convenient to use. Besides, the product is made with reliable stainless steel quality for high bending resistance as well as to provide a nicer, practical and more refining effect to your plant aquarium (4.0)

DYMAX STAINLESS STEEL LILY PIPE SET

Lily Pipes are an ideal filter tubing solution for the aquarist who prefers to keep the focus on his/her tank inhabitants rather than unsightly plastic equipment. These Stainless-Steel Lily Pipes by Dymax are crafted from surgical grade stainless steel, making them durable as well as resistant to scratches, rust, and substance buildup. These easy-to-clean pipes are also able to withstand both acidic and alkaline water parameters, making them suitable for most applications. Use these inflow and outflow pipes to provide consistent water flow, prevent stagnant areas, and ensure proper aeration-- all while maintaining a refined aesthetic!

This set also includes an attachable stainless steel surface skimmer to keep the surface of the water clean and free from debris, plant trimmings, and bio-film. Accumulated substance on the aquarium's surface is cleared with a gentle flow to ensure CO2 gas is not wasted. (4.0)
